O R D E R:

In the reference read above, the Engineer-in-Chief, Polavaram Irrigation Project, Dowlaiswaram has submitted that the construction of Radial gates in Spillway is the most important and key component in Polavaram Irrigation Project. The Spillway was designed to discharge maximum flood of 50 lakh cusecs. For this purpose the Radial gates are to be manufactured as per standard codes of practices involving selection of materials, fabrication with tolerances not exceeding specified limits as per standard codes, welding, inspection of manufactured assemblies and their accuracies, erection of gate components embedment of metal parts into the civil structures and finally testing the installation and final checks involved. For this purpose, advises from specialized Gates expert is very much essential for this Project.

2. Previously Gates expert at National level Sri N.Kannaiah Naidu gave his valuable suggestions in designs & drawings of Spillway radial Gates and hoists. The Central Water Commission also approved the designs & drawings of Spillway radial Gates and hoists. Further, it is to submit that Sri N. Kannaiah Naidu is well known national wide gates expert and is also a member of Board of consultant of Sardar Sarovar Narmada Nigam limited to conduct periodical review in design and construction stages of gates. His services are essential in the fabrication of Radial gates of Spillway regulator and other ancillary mechanical works of this Project. He expressed his willingness to work for the Polavaram Irrigation Project and submitted a letter to the Hon'ble Minister for Water Resources Department.

3. The Engineer-in-Chief, Polavaram Irrigation Project, Dowlaiswaram has requested the Government to examine the above matter and communicate orders of the Government to appoint Sri N. Kannaiah Naidu as adviser for Radial Gates and other ancillaries mechanical works of

PTO

Spillway in Polavaram Irrigation Project with following terms and conditions:
